

NEELESH SINGH

📞 (+91) 9628491678 ✉ ns9628491678@gmail.com 👤 [My-Portfolio](#) 🌐 github.com/singhsduos India

Education

Galgotias University

B.Tech in Computer Science and Engineering

September 2017 – June 2021

Greater Noida, Uttar Pradesh, India

Coursework : Data Structures and Algorithms , SQL (Familiar), Web Development

Experience

Bolt IOT

Web Development Intern

01/02/2021 – 31/03/2021

Achievements/Tasks

- Learning and Implementing web development fundamentals in given projects.
- With knowledge of **MERN i.e React-JS, NodeJs, ExpressJs and MongoDB** implemented in web development and also making UI responsive and beautifully aligned.
- Here I am listing one of my projects during internship time:

BetterKart (E-commerce website) - [Github](#) | *MERN Stack*

- Built an **E-Commerce website** offering all kind of products for customers to choose from.
- **Features:** Product page, Search products, Category search, cart, Stripe payment.
- Tech stack for the front-end is **React.js** and **Material UI**. And for the back-end are **ExpressJs, MongoDB, and NodeJs**.
- Website Live <https://betterkart.herokuapp.com/>

Projects

Netflix Clone (Movie watching platform) - [Github](#) | *MERN Stack*

- This is a platform for **viewing movies and series**. Created a movie and series databases and algorithm to recommend movie in every fresh click.
- Tech stack for the front-end is **ReactJS** and **SASS**. And for the back-end are **MongoDB(NoSQL), NodeJs, and ExpressJs**. And integrated with RESTful APIs .
- Website Live <https://netflixclone.vercel.app/>

Lovely Shelter (Hotel Booking Site)- [Github](#) | *MERN Stack*

- This is a **Hotel Booking site** where users book the site in any of the chosen cities and another user cannot book the same date hotel and room.
- **Key features are** : search the hotels in the available cities, see the details of hotels like city, amenities, date available, cost of the room, and book the hotel for available dates.
- Website Live <https://lovelyshelter.onrender.com/>

HexaShare (File Sharing Platform)- [Github](#) | *Stack: Typescript, NextJs, ReactJs, NodeJs, MongoDB, TailwindCSS*

- This is a **file-sharing platform**, where the user uploads a file of any type and generates the download link, and shares it with friends.
- **Key features** are Uploading files of any type, generating the link to download files, and also with **SMTP mail service** user can send mail of download link generated by the user **without any Gmail login**. All files are uploaded in **Cloudinary** in the backend.
- Website Live <https://hexashare.vercel.app/>

X Bills (Invoice Generator Site)- [Github](#) | *Stack: Next.Js, React.Js, MongoDB, CSS*

- This is an **Invoice generator** platform, where users generate the bills for their clients.
- **Key features** are generating the bill by entering client details like name, email, address, product details, total cost, etc. Also, you can **download the bill pdf**, edit the invoice again, or make a draft of the invoices.
- Website Live <https://xbill.vercel.app/>

Skills

Languages: C++, HTML5/CSS3, JavaScript, Typescript(Familiar)

Developer Tools: VS Code Postman Git Jira

Lib/Frameworks: React JS StoryBook BaseWeb Bootstrap SASS/SCSS, Frontend

Extras: Linux, Windows , Operating System , Problems solving

Achievements

- **HackerRank:** [ns9628491678](#) **5 star** Gold Badge in C++.
- **GeeksForGeeks:** [singhs_duos](#) Solved more than **200+** problems. Also have campus rank **72** out of 3750.
- **LeetCode:** [ns9628491678](#) **3.5 star** in platform and highest rating earned in one of the contest is **1315**.
